

EXHIBIT NO. 1

The Bi-Level **DMU** 3-5-2015

BILL NO. HJ 10

*Based on proven designs by Colorado Railcar, the bi-level is our flagship for savings and elegance. It is fully FRA compliant and ready for quick-start service on all regional and intercity rail lines across North America. Its sleek, modern design will attract new riders, improve regional mobility and save millions of dollars in operating & maintenance costs over its lifetime. US Railcar DMUs run up to 110 mph with an energy efficient propulsion system that uses less fuel, while meeting EPA standards. US Railcar DMUs are built to your specifications. They are ADA compliant and available as either single-level or bi-level.*
